Re: Application for Ethics Approval (Our Ref. AH23838): Approved

The Committee considered your application for ethics approval for the study entitled "**Pasifika intervention for rheumatic fever prevention in South Auckland Pasifika communities**".

We are pleased to inform you that ethics approval has been granted.

The expiry date for this approval is **21/03/2025**.

Locality approval: Before starting your research, ensure that all the required locality approvals have been obtained. If one or more DHBs will be a locality, please contact their Research Office(s) to determine the locality approval requirements of the DHB(s). Auckland DHB and CM Health researchers should contact their DHB Research Office for further advice. University staff accessing DHB staff or patients as participants must likewise ensure all guidance from the DHBs are followed.

Restrictions to contact with participants in person due to the current COVID-19 protection framework setting may make the approved study methodology impractical. The Committee would like to remind researchers that they should check guidance updates and submit an amendment request if any changes need to be made to the approved ethics application to enable you to continue with your study.
