ETHICAL COMMITTEE CERTIFICATE

The Committee considers the ethical aspects of project entitled “**Comparative Efficacy of Intra-articular Corticosteroid Injection vs Autologus Platelet Rich Plasma Injection in Sacroillitis – A Randomized Controlled Trail** ” and undertaking by the investigator, **Maj Dr. Syed Tameem Ul Hassan**, to observe the conditions, laid down in the declaration by World Medical Association at Helsinki (2008) regarding the ethical principles for in-vitro medical research. Following points must be ensured:-

1. The health of patients will be the prior consideration.
2. The procedures shall be explained to the subjects clearly and expressed consent shall be obtained.
3. All procedures shall be kept aseptic and painless.
4. Finding shall be used strictly for scientific publication.
5. The confidentiality of the information shall be assured and maintained.

Further, the members persuade the project and were satisfied with the undertaking of the investigators.
